Jay ABBASI

"CAN'T MISS SESSION!!"

ILC ANNUAL CONFERENCE

High standards are part of Jay Abbasi's DNA. From leading national training programs at Tesla to coaching leaders at some of the world's biggest companies, he's learned that accountability isn't about demanding more. It's about inspiring people to own more.

A TEDx speaker and coach to leaders at Google, Amazon, and TikTok, Jay combines behavioral science with real-world leadership experience to help teams turn accountability into everyday action.

Every session is built for your audience.
Before he takes the stage, Jay connects with your leaders and attendees to tailor the message to what your people are facing right now.
